Screw 4,2x13 WURTH k.31314213 	Screw 4,2x19 DIN 7504 

It is recommended to install shelves at the locations indicated in Figure 1. For shelf mounting, refer to the detachable elements A and B.

For installation, mark the heights of 610 mm and 1070 mm from the bottom point of the foundation (recommended) on the trusses.

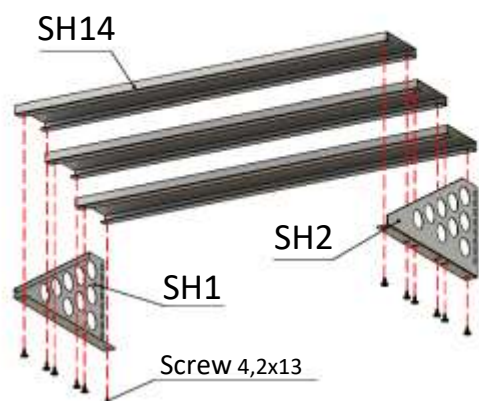

Assemble the shelves and install them as shown in Figure 1.

Assembly order

1. Assemble the shelves as shown in Figures G and K.
2. Assemble the shelves together with the posts SH17 and SH17R (see Figure C).
3. Install the rack at the end of the greenhouse and secure it with self-tapping screws 4.2x19 (see Figures D, E, and F).
